

National Conference on Contemporary Cast Iron Art & Practices
Sloss Furnaces, National Historic Landmark
Birmingham, Alabama
April 5-8, 2023

The 2023 National Conference on Contemporary Cast Iron Art and Practices (NCCCIAP) would like to invite proposals for artist-led workshops. Our 2023 theme is **Shift Change**, and we encourage you to be creative in your interpretation and consideration of the theme in your proposal. That said, workshops that do not directly address the theme but aim to teach participants in other processes, skills, and concepts are most welcome.

OPEN CALL FOR WORKSHOPS

The Steering Committee for the National Conference on Contemporary Cast Iron Art and Practices would like to invite all artists and professionals to submit proposals for workshops and instructors for the 2023 conference.

Workshops are offered to allow production and instruction in processes that may be unavailable or unfamiliar to attendees. Proposals for workshops must include an objective and/or overall goal of the workshop. They should also specify necessary tools and equipment, material cost per workshop attendee and the maximum number of workshop attendees. Workshops will be held during the week of the conference, and all projects and processes should be completable in that timeframe.

We encourage creativity and personalization and the inclusion of workshops teaching skills beyond traditional metal casting.

Be sure to keep in mind this year's theme: Shift Change.

SUBMISSIONS DUE: October 31, 2022

Notification of acceptance by November 18, 2022

Please submit proposals for workshops to- NCCCIAP@gmail.com

Workshop Director: Robin Baker
